J. GIST.

LOTS FOR SALE AT THE HOT SPRINGS OF NEW MEXICO.

Springs and the fact that they, the greatest corporation of the age, have recently become the owners of these Springs, their policy being to spring no money to make the ground attractive, and to furnish ample Hotel and Bath accommodations to meet the demands of their patrons. By their grand system of advertising, and the liberal spirit that they have always shown toward the traveling public, makes it an accomplished fact that the Hot Springs of New Mexico is destined to become the greatest Sanitarium and Touris Resort in America.

The grounds at the Springs has been laid out in lots and parks to suit the wants of the home, lea sure, and health seekers, the capitalist, and all who want a desirable place to live where call the and good society can be obtained. These lots both for business and residences are now often deformable at a very reasonable price.

Remarkable Springs

although until within a few years comparatively unknown to the outside world, have a local reputation which antedates the present century, and from time immorial have been resorted to as the "Great Siloam" by the natives of this Territory. The mineral constituents of these waters closely resemble those of the Hot Springs of Arkansas, and those famous Thermal Springs of Europe. The Pfeffers in the valley of the Rhine, and the Plombieres, the popular resort of France, situated in the valley of the Vosges Mountains, and the Leux in the picturesque valley at the foot of the pass over the Gemmi Mountains. At these springs thousands of invalids visit annually, and are

be accompanied by friends who will spend the winter with him in Santa Cured of the Diseases of the Blood

Skin, stomach. paralysis, gout, ricumatism, gravel, Catarrh, and temale complaints by bathing and drinking the water. People visiting the list Springs of New Mexico have been cured of all of the above diseases, and even more. It is the invalids paradise. The great Sanatarium of the world for lung diseases. The atmosphere is clear and dry, and pulmonary and missmatic complaints are scarcely known.
